## I. HOW TO CONFIGURE IN MAGENTO BACKEND

Newsletter	CMS	Simiconnector	Request4Q	iote	Reports
allouts before site launch		Connector Settings 🛛 🖌			
egory Products, Catalog Sea		Payment 🛛 🔏 to Index Ma		ex Manageme	
<u>ce</u> for more details.Click here		Themes 🔬 your setting		ttings.	
		Rich Content User Experienc.	Store Locator Videos		43
			Product Labels		

Step 1: In your backend, go to Simiconnector / Rich Content / Videos

Step 2: Click on Videos to manage videos on your mobile shopping apps.

If you want to edit current video, click on the video title. Then you can edit the information of each video. Remember to click on "Save Video" when you finish editing.

Video Information	Edit Video 'My Title'		Back Reset Save Video Save And Continue Edit
Video information	Video information		
	Ardso mormation		
	Status	Enabled ~	
	Tide *	My Title	
	Youtube Video URL *	https://www.youtube.com/watch?v=AfgX7GB_Rkc

- Status: Select Enabled/ Disabled to display video or not.
- Title: Enter name of video you want to show on your app.
- YouTube Video URL: Input URL of video on YouTube.
- Product ID: ID of product you want to show this video (You can choose more than 1)

Note: Please remember to click on "Save Video" to save all information.

## II. Product video in SimiCart app

When you finish configuring in Magento backend, videos will be displayed on your mobile shopping app.

In Product detail page, when customers click on button "More" to view product's details, they can tap on "Video" to watch product's videos. Otherwise, customers tap on Float button/ Video symbol to watch videos.
