# SIMICART

---

## PayPal Configuration Guide

*SimiCart has been integrated with PayPal to bring you a native checkout experience.*

### **PayPal Mobile Gateway**

*PayPal supports credit/debit card payment.*

*PayPal requires PayPal email, Client ID, Client Secret, API Username, API Password and Signature.*

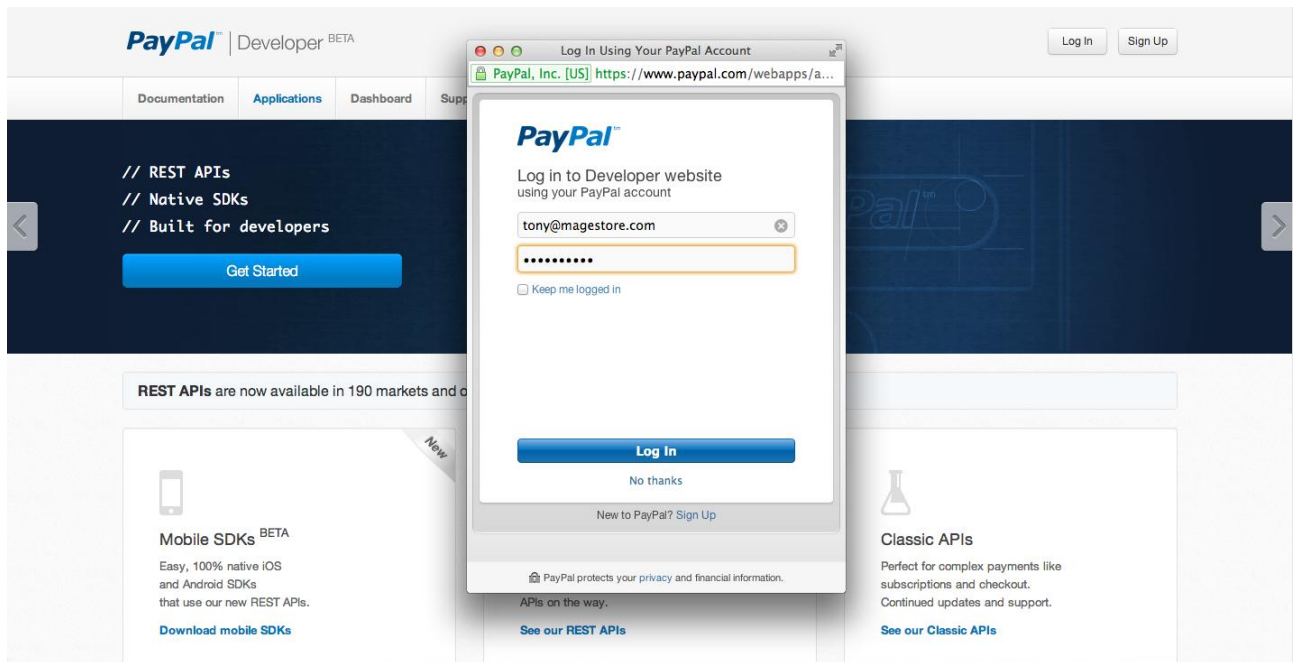

# 1. Install PayPal Mobile Plugin

---

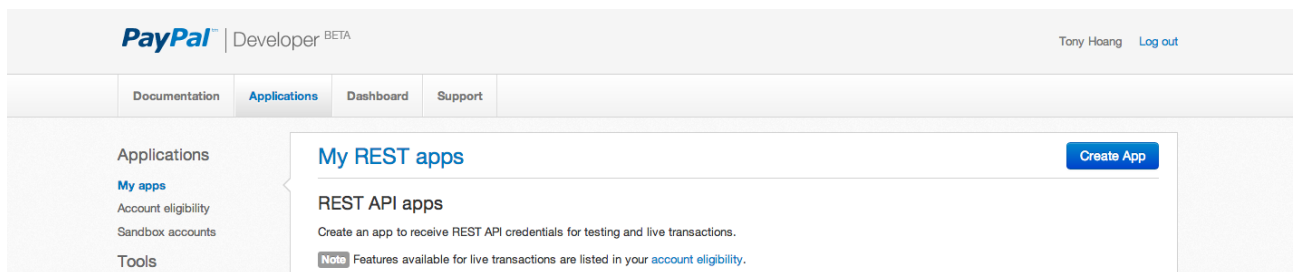

1. After downloading the Connector file, please unzip it to your Magento folder in web server.
2. It's required to enable cache in the administration panel of your site. Go to System/Cache Management. Choose all caches and take action "Enable" then submit.
3. Use FTP client (such as Filezilla, WinSCP, cuteFtp) to upload or copy all folders in the zip package to your Magento site root folder. This will not overwrite any existing files, just add new files to the folder structure.
4. After uploading is done, log in to your Magento administration panel to refresh cache. Go to System/Cache Management. Select all caches and take action "Refresh" then submit.
5. In the SimiCart Connector section, if you can see the plugin in Manage Plugins tab, it is installed properly.
6. If you get Access denied error when clicking on the SimiCart Connector tab, you need to log out admin panel and log in again. Now the installation is finished.

## 2. Configure PayPal information

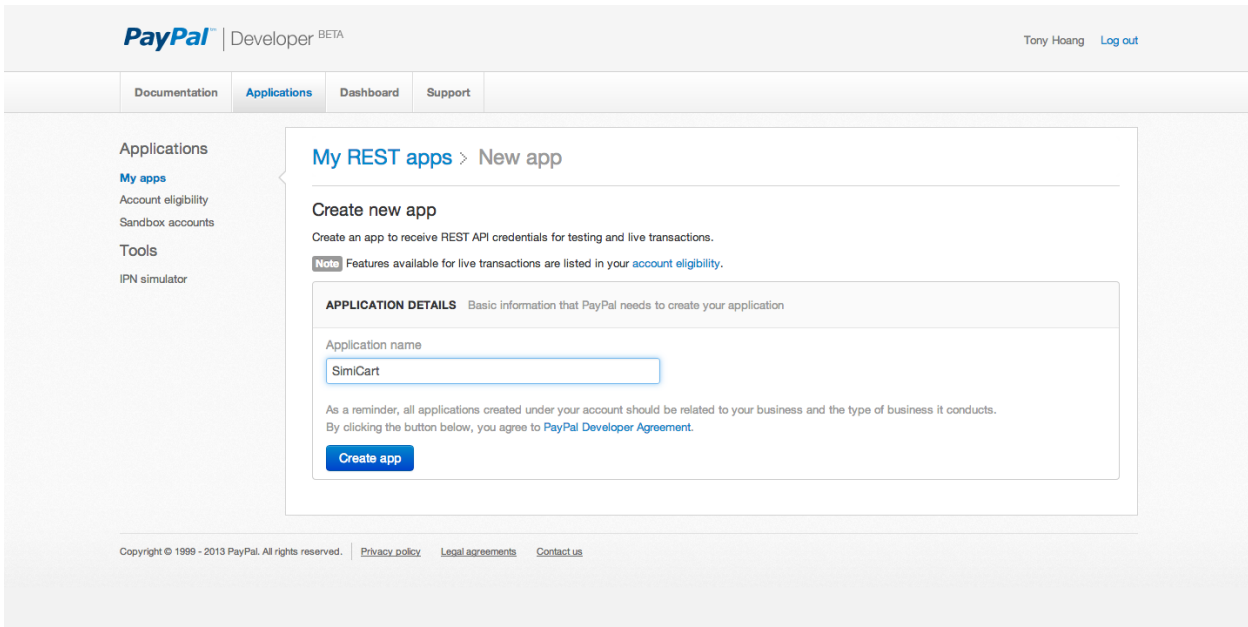

1. Log on to <https://developer.paypal.com> by clicking the Login button at the top of the page.

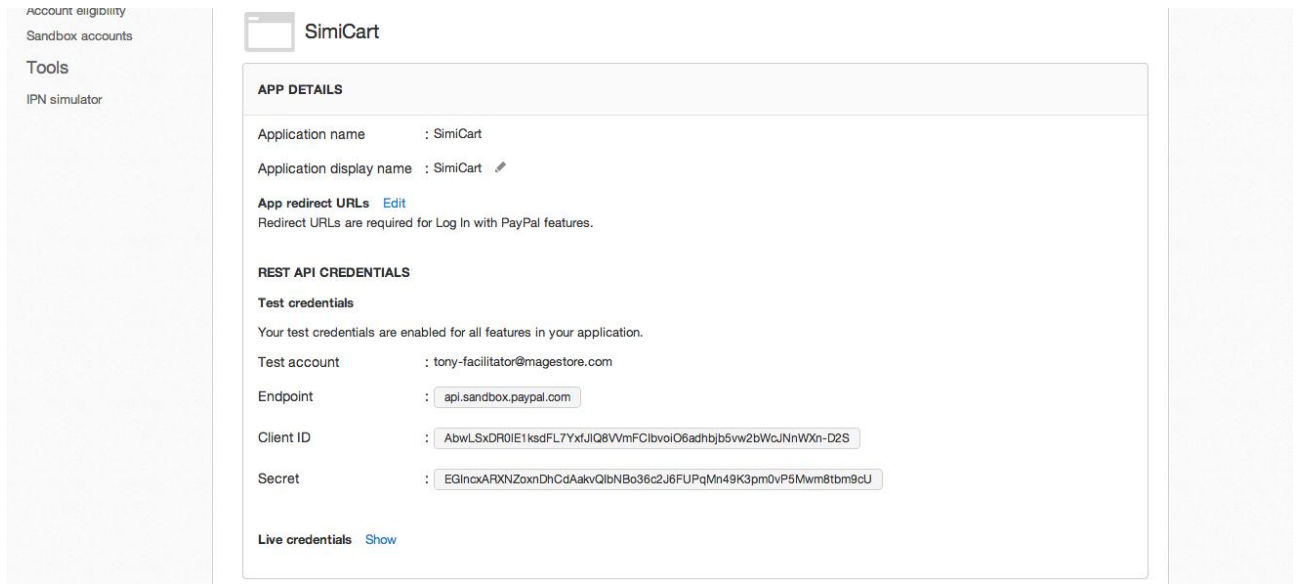

1. Click on Applications Tab then click on Create App button

2. Next enter your app name, then click on Create App

- Then you will see the REST API Credentials for sandbox mode. If you want live mode, please click on Show link. And please attend to Account, Client ID and Secret.

- Go to Magento Admin, choose System → Configuration → Payment Methods → PayPal Mobile. And enter the Email, Client ID and Secret of your app which you have created before.

**Payment Methods**

**PayPal Mobile**

Title	Paypal Mobile	[STORE VIEW]
Enabled	Yes	[WEBSITE]
Email Associated with PayPal Merchant Account	tony-facilitator@magestore.com	[WEBSITE]
API Username	*****	[WEBSITE]
API Password	*****	[WEBSITE]
Signature	*****	[WEBSITE]
New order status	Pending	[WEBSITE]
Client ID	*****	[WEBSITE]
Client SECRET	*****	[WEBSITE]
Sandbox Mode	Yes	[WEBSITE]

[Get Credentials from PayPal](#) [Sandbox Credentials](#)

- Click on button Get Credentials from PayPal (live mode) or Sandbox Credentials (sandbox mode – for testing). Then login by your account associated with the mode.

**Payment Methods**

**PayPal Mobile**

Title	Paypal Mobile	[STORE VIEW]
Enabled	Yes	[WEBSITE]
Email Associated with PayPal Merchant Account	tony-facilitator@magestore.com	[WEBSITE]
API Username	*****	[WEBSITE]

[Get Credentials from PayPal](#) [Sandbox Credentials](#)

**Secure Payments by PayPal**

**Get your API Signature**

**Login to your Account**

Email Address: tony-facilitator@magestor

PayPal Password: \*\*\*\*\*

[Problems logging in?](#)

By clicking on Log In I agree to the [API Licence Agreement](#) and [terms of Use](#)

[Log In](#) [CANCEL](#)

**New to PayPal?**

Create your account today, then return to Magento to enter your API signature.

[Sign up now.](#)

6. Now, you have to enter API Username, Password and Signature.

The screenshot displays the Magento Admin configuration page for 'Paypal Mobile'. The left sidebar contains navigation menus: 'Payment Methods', 'CATALOG', 'CUSTOMERS', 'MAGESTORE EXTENSION', and 'SALES'. The main content area shows the configuration for 'Paypal Mobile' with the following fields:

- Title: Paypal Mobile [STORE VIEW]
- Enabled: Yes [WEBSITE]
- Email Associated with PayPal Merchant Account: tony-facilitator@magestore.com [WEBSITE]
- API Username: [WEBSITE]
- API Password: [WEBSITE]
- Signature: [WEBSITE]
- New order status: Pending [WEBSITE]
- Client ID: [WEBSITE]
- Client SECRET: [WEBSITE]
- Sandbox Mode: Yes [WEBSITE]

Buttons for 'Get Credentials from PayPal' and 'Sandbox Credentials' are present. A 'Save Config' button is in the top right corner. An inset window shows the PayPal developer page with the following information:

- Secure Payments by PayPal
- Get your API Signature
- Developers: Do not share your credential information with anyone. Store in a secure location with limited access.
- Here is your API signature
- API Username: tony-facilitator\_api1.magestore.com
- API Password: 1383280346
- Signature: AS5LUvqo3nROy4k-0t6UenkYIEHYQA
- Copy and paste the PayPal settings above into the API/Integration section of your Magento Configuration page.

7. Click on Save Config button on the top right corner.

8. It's completed. Your Mobile-App can now execute transactions via PayPal Mobile Gateway.

-----THE END-----
