1. INTRODUCTION

PayU (www.payu.in) is India's most comprehensive payment gateway with credit cards, debit cards and net banking in India. It is a local branch of PayU (<http://www.payu.com/>), one of the largest payment gateways in the world.

That is the reason why we decided to create a plugin called PayU India, which is to help connect SimiCart app with PayU payment method. So, customers can make purchase on mobile via PayU gateway.

Please note that:

- You need to purchase one of [SimiCart](#) packages first to use PayU India.
- SimiCart's PayU India plugin is for India market only.

Outstanding Features

- Simple to install
- Support Android and iOS
- Allow payment with credit/debit card
- Connect with PayU India
- Easy to configure

2. HOW TO INSTALL

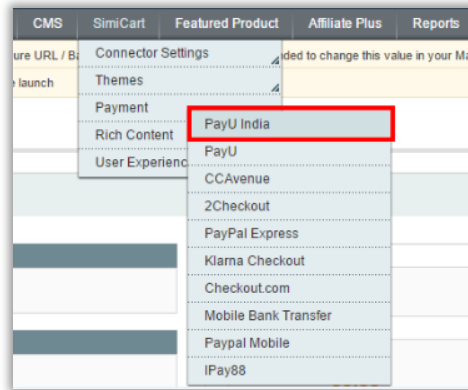

After purchasing plug-in, you will be directed to App Management page. Go to **Install Connector** tab; download **PayU India** connector, which is a zip file.

1. It is required to enable cache in the administration panel of your site. Go to System/Cache Management. Choose all caches and take action “Enable” then submit.
2. Use FTP client (such as Filezilla, WinSCP, cuteFtp) to upload or copy all folders in the zip package to your Magento site root folder. This will not overwrite any existing files, just add new files to the folder structure.
3. After uploading is done, log in to your Magento administration panel to refresh cache. Go to System/Cache Management. Select all caches and take action “Refresh” then submit.
4. Navigate to System/Configuration; if you can see the extension tab, it is installed properly.
5. Now if you get Access denied error when clicking on the extension tab, you need to log out admin panel and log in again.
6. Open the Magento backend and start configuring.

3. HOW TO CONFIGURE

Please follow the steps below:

1. In your Magento backend, go to **SimiCart/ Payment/ PayU**

2. You will be led to **Payment Methods** page, where you can configure all of your payment methods. Go to **Simi-PayU India** section.

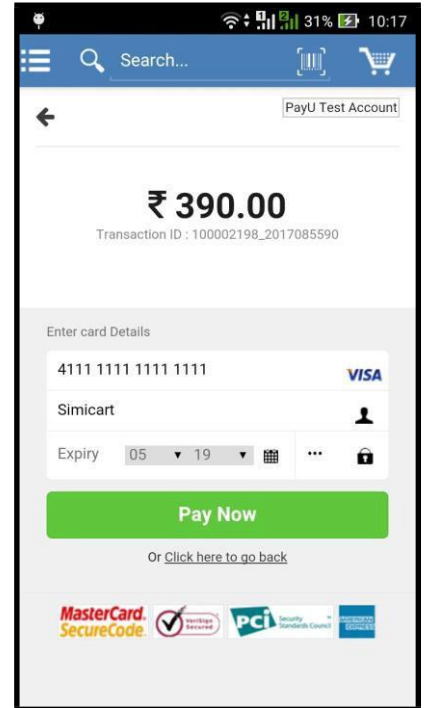

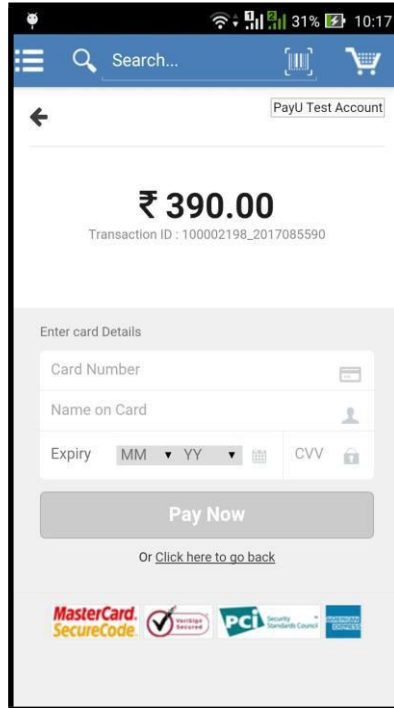

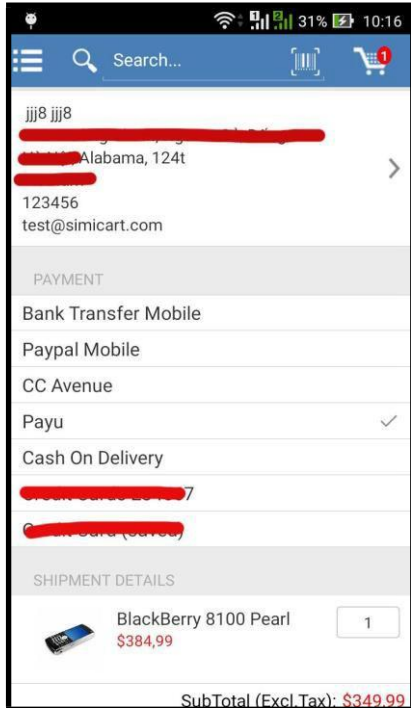

Simi - PayU India
