

SIMICART USER GUIDE SERIES

How to Configure SimiCart Extensions

MANAGE INSTANT CONTACTS

HOW TO CONFIGURE AND MAKE IT WORK

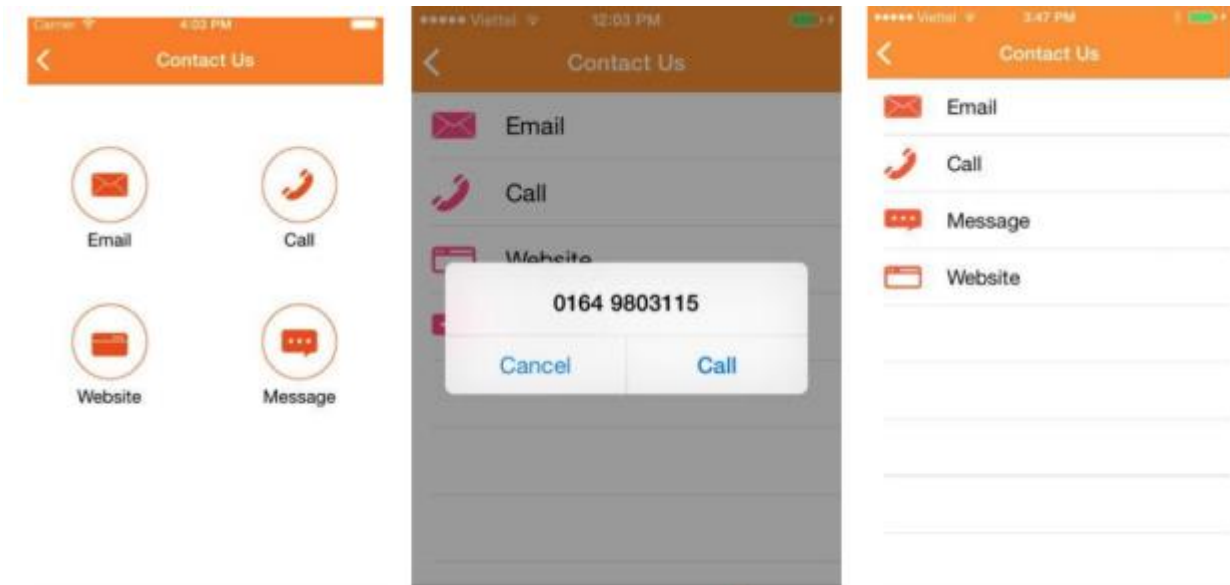

1. Login to your Magento Backend. Locate to **Simiconnector/Connector Settings/ General Settings/ Instant Contact Configuration**.

The screenshot shows the Magento Backend configuration page for Simiconnector. The 'System' tab is selected, and the 'General Settings' section is expanded. The 'Instant Contact Configuration' section is visible, containing the following fields:

Field	Value	Action
Enable	Yes	[STORE VIEW]
Email	contact@simicart.com	[STORE VIEW]
Phone Number	00123456	[STORE VIEW]
Message Number	09877942412	[STORE VIEW]
Website Url	http://localhost.com	[STORE VIEW]
Style	Grid	[STORE VIEW]
Icon Color	FF30F2	[STORE VIEW]

2. On this new page, you can configure instant contact setting here:
 - **Enable:** Choose to Enable or Disable Instant Contact (Disable = not showing)
 - **Email:** The email addresses to received email from customers (Add more email by separating them with a comma)
 - **Website URL:** Your website URL that customers will be led to when they tap on its icon. The link should be in <http://abc.com> or <https://abc.com> form.
 - **Style:** Choose Grid or List to decide how contact icons display in Contact Us page of your app.

- Icon Color: Color of contact Icons (by default it's SimiCart theme color) you can enter the color code or use color picker.

***Remember to save all changes by clicking on save.**
