## 1. INTRODUCTION

Inspired with Metro theme of Windows 8 and flat design style, **Matrix theme** was created to bring about the best look and mobile optimized experience for all of your customers who use smart phones and tablets for shopping every day.

Like Matrix, like magic, this theme allows you to showcase your featured products and categories with a glorious layout as well as any subtle details of checkout page, product listing, etc... to catch the eyes and hearts of customers when they are on your app.

### **Outstanding features:**

- ✓ Allow configuring categories in homepage.
- ✓ Allow configuring spot products in homepage.
- ✓ Allow managing banners
- ✓ Support tablets and phones.
- ✓ Simple to use.

This user guide will instruct you to install and configure Matrix Theme to utilize all of its advantages and beautify your app.

## 2. HOW TO INSTALL

1. After purchasing, you can download the file at once. Extract the contents of the archive on your computer and navigate inside the extracted folder.
2. It's required to enable cache in the administration panel of your site. Go to System > Cache Management. Choose all caches and take action "Enable" then submit.
3. Use FTP client (like Filezilla, WinSCP, cuteFtp) to upload (copy) folders in the zip package to your Magento site root folder. This will not overwrite any existing files, it only adds new files to the folder structure.
4. After uploading is done, Log in your Magento administration panel to refresh cache if the cache is being enabled on your site. Go to System > Cache Management. Select all caches and take action "Refresh" then submit.

## 3. HOW TO CONFIGURE
